

Epson EB-1750

DATASHEET

Whether travelling on business or simply moving between meeting rooms, this slimline, ultra-mobile projector is the ideal choice for effective, stress-free presenting.

Designed with the mobile presenter in mind, this stylish projector weighs just 1.7kg with a height of 44mm – making it one of the flattest and lightest models in Epson's projector range. A high white and Colour Light Output (CLO) of 2,600 lumens combined with Epson's 3LCD technology provides outstanding picture quality and vivid natural colours even in full daylight.

Perfect for presenting on-location, set-up is easy with the quick start-up and instant-off functions. Automatic vertical keystone and manual horizontal keystone correction means images are always completely straight and free from distortion.

With the 3-in-1 USB display – unique to Epson – presenters can play both image and sound from the projector, as well as using the remote control with just one USB cable. This is also compatible with Macs too.

KEY FEATURES

- Extra-flat, ultra-light design
- 2,600 lumens for easy daylight viewing
- Automatic vertical keystone correction
- USB Display for fuss-free presenting
- Quick start-up and instant-off functions
